

MCKAY CONANT HOOVER INC
Acoustics and Media Systems Consultants

Minutes from the financial and central business districts of Dubai, situated in close proximity to Dubai International Finance Centre and Dubai Convention Centre, this lavish inner city 38-story, 2-winged residence tower complex is designed for those accustomed to the finest things in life.

The two towers include 377 contemporary residences, including a number of Serviced Apartments, ranging from a 970sf one bedroom simplex units to four bedroom duplex galleries of 4,100sf. The 30th floor features the principal restaurant and directly below this are two fully equipped meeting rooms and a Business Centre. Larger meetings and conferences are served by the nearby Jumeirah Emirates Towers Fitness Centre. Also on the same floor, the Fitness Centre offers state of the art resistance and cardiovascular equipment in addition to a 25 metre lap pool, a children's wading pool, and a rooftop landscaped sun deck.

Construction commenced in 2006 (undisclosed sum), following the designs of US architect firm Jung Brannen, with the first guests being welcomed in August 2008.

Acoustical consulting provided as a Cavanaugh Tocci Associates, Sudbury, MA project, K. Anthony Hoover, FASA, Principal Consultant.
