

# MCH

MCKAY CONANT HOOVER INC  
Acoustics and Media Systems Consultants

In addition to providing the setting for much of *Pretty Woman*, this 5-star venue is known to cater to Elvis (no recent sightings), Barb, Elton, and Mick. In 1987, the historic hotel embarked on a major, highly architecturally sensitive transformation under the auspices of Regent International Hotels, into the fine venue it is today - strategically located along Rodeo Drive. MCH provided consultation on all acoustically-important aspects of the entire 341-key facility, from its \$1,300/night suites to its high-end dining room directly above the emergency power generator, to its rooftop kitchen exhausts within 30ft of its highest-priced units. Only the most sensitive hand could be applied in every detail, recognizing the highest possible expectations of the regular clientele.

*"It's the attention to detail - the flickering stars in the steam room, the choice of scents in the shower, the spa vanity kit placed in your hands at check-in - that makes The Spa at Beverly Wilshire rank among the best in the city."* - Angeleno Magazine, January 2008
