

MCH

MCKAY CONANT HOOVER INC
Acoustics and Media Systems Consultants

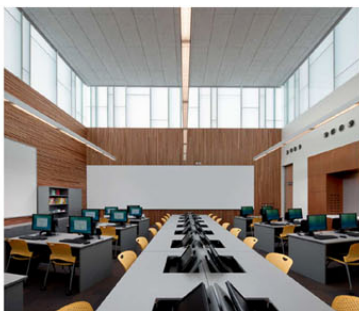

This 50,000sf, \$24M library opened in September 2011, combines the functions of a modern public library with the components of a state of the art central campus library. The library includes a 200 seat multifunctional community meeting room, conference and multimedia center, teen space, high tech classrooms, computer center, quiet and interaction rooms, WiFi, study rooms, 131 public computers with Internet access, patio spaces and a new collection of newspapers and magazines, books, DVDs and CDs. A children's library and storytime room are organized below the academic story telling institution with vertical connection to the exterior courtyard dedicated to the children's use. MCH provided full-scope acoustical consulting services on this facility jointly operated by Phoenix Public Library and South Mountain Community College.
